REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The faculty and staff at Harleyville-Ridgeville Elementary, along with the School Improvement Council, have concentrated their efforts to ensure each student gets the most from their educational experiences. Initiatives have been implemented that focus on the child as an individual learner.

Some initiatives that we have put in place for the past school year include: Response to Intervention Groups, an After-School Homework Center, a Writing Specialist for grades four and five, several Computer Assisted Intervention Programs, and Reading and Math Intervention Groups.

The results from the 2009 PASS indicate that we need to focus on math and social studies in grades three through five. Our science scores are also in need of improvement in grades three and four. We will continue to use the State Support Documents along with staff development to address these needs.

We will also continue to use results from our assessments to address individual, class, and grade-level student needs. Grade-level teams meet weekly to discuss areas of concern. We also administer the MAP assessment three times per year to gauge our students' progress and re-adjust our instructional focus, if necessary.

We are proud of the improvements that our children are making academically and socially. As a school community, we continue to encourage character development as well as academic excellence. Our parents and the community have been very supportive of our efforts, and we try to keep them involved in the educational process.

We believe with support and high expectations, our children will continue to make the necessary improvements to be good students and citizens.
